Casey's At the Bat In New TMNT Spinoff Series

Casey Jones, the hockey-mask-wearing vigilante who was one of the most popular members of the Teenage Mutant Ninja Turtles' supporting cast in the early days of the series, is back in action with his Turtle compadre Raphael in a new series that also reunites two other buddies: Kevin Eastman and Simon Bisley (who formerly worked together on ***Melting Pot***).

Casey Jones & Raphael, a new six-issue full-color series written and pencilled by Eastman and inked and colored by Bisley (who also supplies the cover paintings for each issue), is a hard-hitting series that Eastman describes as "the longest-running gunfight in comic book history!" The story pits the two against a group of "bad dudes, angry freaks, and uzi-toting mutants" in the first of a series of Casey Jones miniseries.

"I wanted to do something different with the Turtles," Eastman said, "but not focus on them directly. Casey's always been my favorite character and seemed like the perfect choice to express the anger and vigilante theme that shrouds the Turtles. Also, Casey can get away with a lot more than, say, Michelangelo or Leo. He plays by a different set of rules and is more likely to 'compromise' his code and bust some chops than his mutant buddies—with the exception of Raph, of course."

Casey Jones & Raphael is the first in a series of series that will team Casey not only with various Turtles, but also with other characters enigmatically described by Eastman as "some other heavyweights in the superhero business!" ***Casey Jones & Raphael #1,*** the premiere issue of the full-color bimonthly miniseries, is priced at $2.75; look for it in the first week October.

Deathwish Gets New Life In Miniseries

If you like your heroes grim, gritty, and well-armed, then you're bound to *love* Deathwish. Now, if only he weren't psychotic...

Deathwish, who was first introduced in ***Hardware #s 5-7***, offered fans a glimpse at the darker side of the personality of a vengeful anti-hero; driven by his war against Dakota's corrupt and criminal element, the hero gradually became far too much like the criminals he hunted. At the end of that storyline, he was imprisoned—but as the new Deathwish miniseries begins, Deathwish is freed from jail and eager to be back in society.

A brutal knife-wielding serial killer is slaughtering transvestite prostitutes in Dakota—and in a perversely artistic twist, the killer is carving his victims into bloody tributes to various classical works of art such as Michelangelo's ***Pieta*** and Botticelli's ***Birth of Venus.*** Police detective Marisa Rahm wants to end this sociopath's brutal spree—and Rahm has a personal motivation. Her lover, Dini, was the only survivor of the killer's attacks.

™&©1994 DC Comics

"Marisa Rahm is a heroine with remarkable inner strength," writer Adam Blaustein said. "She is an unlikely lodestone for tremendous brutality, both in the criminal elements she meets and in her interpersonal relationships. She has to deal with harassment from her fellow police officers—who once knew her as Martin Rahm." You see, detective Marisa Rahm is a pre-operative transsexual. Because her fellow detectives don't share her determination to solve this case, she turns to Deathwish to help her. After all, who better to hunt down a psychotic than another psychotic?...

Deathwish, a four-issue Milestone limited series suggested for mature readers, is written by Adam Blaustein and illustrated by J.H. Williams III and Jimmy Palmiotti. The first issue, priced at $2.50, is scheduled for November 10th release.

Team 7 Up!

Image has no shortage of tough guys—but a lot of fans are curious just how they got so tough! After all, it's pretty easy to have an attitude when you also have superpowers and heavy weaponry to back it up... but what were these guys like before they became some of the more powerful members of the Image Universe?

Wildstorm Studios is doing its part to answer that question in ***Team 7,*** a new four-issue limited series that debuts in October. Before they became superheroes, Grifter, Backlash, Deathblow, Lynch, and Dane were members of this elite fighting force, risking their all-too-human lives and learning the true meaning of bravery in the face of intimidating odds. Now, readers will have a chance to find out just what happened in those early days to prepare these five for their superhero careers.

Team 7, written by by Chuck Dixon and illustrated by Aron Wiesenfeld and Trevor Scott, depicts Team 7's transformation from commandos to superhumans, revealing how they came to form the backbone of such teams as WildCATs, Stormwatch, and Wetworks. ***Team 7 #1,*** a $2.50 comic, is scheduled for October release.

What's Black and White and Dead All Over?...

Some men have problems meeting women; for Felix Stone, though, the problem is just the opposite—he knows too many women. That wouldn't be such a problem, however, if the women he knew would just stay alive!

Felix Stone is the protagonist of ***Red River,*** a 96-page black and white graphic novel that is also the first release from Blue Blood Comics. "***Red River*** is the story of Felix Stone and all the girls he's loved before," writer /artist Stephen Blue said. "One by one, they are being murdered. Because the police are after him as their main suspect, Felix must find the real killer—before another woman is found dead, floating in the Red River."

™&©1994 Steve Blue

The problem becomes even worse when Felix discovers that the real murderer looks so much like him that the two could be twins. Not only does Felix have to try to save the women in his life, but he must also convince both them and the authorities that there are two people who look like him—and one of them is a murderous stalker who seems intent on ruining Felix's life as he kills his victims.

Red River may seem familiar to some comic book readers: the first half of the story appeared, in different form, as the series ***Blood & Water,*** published in 1991 by Slave Labor Graphics. ***Red River*** is a totally reworked graphic novel version of that story, supplying the missing final half for the first time.

Blue's entry into the field of comics publishing came about because of a grant from Peter Laird's Xeric Foundation, which makes money available to selected creators to bring their works to the public. In addition to his work for Slave Labor, Blue also did work for FantaCo's ***Shriek*** and SpiderBaby Graphix' ***Taboo.*** Next year, Blue plans to launch his first ongoing series, ***Artifact,*** under the Blue Blood imprint.

Red River, a $9.95 graphic novel, is scheduled for late October release.

Sin City Expands Its Limits With a Second Collection

Sin City: A Dame To Kill For, the second series in *Frank Miller*'s acclaimed ***Sin City*** noir-styled series, is moving from the comic rack to the bookshelf in three different editions scheduled for fall release; each edition will feature 208 pages of story and art, including ten new pages that did not appear in the original comic book series. The story chronicles Dwight's discovery that love isn't always a good thing—particularly when the woman you love is manipulative enough to use any means (and anyone) to get her way; it's the same sort of hard-edged tale that made the original ***Sin City*** one of the most popular non-superhero books in the past ten years.

In November, Dark Horse will release a $15 trade paperback edition and a $25 hardcover edition of ***Sin City: A Dame To Kill For***; a month later, they'll offer a $90 signed-and-numbered hardcover limited edition, complete with slipcase. Fans who are interested in the limited edition should reserve a copy at their local comic shop as soon as possible... and tell 'em that ***CSN*** sent ya!...

The Secret s Out... Or It Will Be Soon!

Sho Sugino, the second Rai, has served Grandmother well. Readers of ***Rai*** know that Grandmother is the computer that rules Japan in the Valiant future, and it is at Grandmother's direction that Rai acts as the protector of Japan. When Rai has a conflict with Grandmother, though, he finds that computers can be merciless—and before he knows it, he's deposed to the Lost Land, where he faces an even deadlier challenge, Mothergod. The fate of the second Rai is the subject of ***Secrets of the Valiant Universe #3,*** written by *Bob Layton* and illustrated by *George Saravia* and *Gonzalo Mayo*. This isn't just another Rai stand-alone story: according to Valiant's *Marty Stever*, "His epic adventures will impact the entire Valiant Universe." And if that isn't enough, Stever adds that "this story leads into the recently-announced Turok video game from Acclaim." ***Secrets of the Valiant Universe #3***, a $2.25 comic, is scheduled for mid-October release.

Mutant fans, grab on to your seats: Professor Xavier dies in December, leading into a major storyline that will run through the winter—and is it true that the killer is Legion?! The big events that follow this story will shake up the X-Men's world in ways that no one has anticipated!... In response to the incredible publicity that the Archie "Love Showdown" storyline has generated (making the first two parts of the four-parter instant sellouts), Archie Comics is collecting the whole thing into a 48-page special, ***Archie's Love Showdown,*** that should reach stores in mid-November... *Bob Lazar*, the scientist who claims that he studied extraterrestrial UFO's for the government at Nellis AFB, is a star: his claims have inspired a new model series from Testors featuring flying saucer designs based on his diagrams, which he claims reproduce saucers held in government hangars... And speaking of Nellis and Area 51, *Kevin VanHook*, writer of the upcoming Valiant UFO-oriented series ***The Visitor,*** recently ventured into this UFO no-man's-land as research for the new Valiant title that debuts later this year; let's hope he left some storylines on file with Valiant just in case he's "detained"... Topps third ***Star Wars*** trading card set is being produced in the larger format that was used for SkyBox's ***Sandman Cards;*** it seems that this size almost exactly duplicates the height-to-width ratio of a widescreen-format film, meaning that Topps can present the entire screen image on a card for the first time!... *Len Kaminski* and *Steven Grant* are co-writing DC's ***Fate*** beginning with the fifth issue... Diamond Distributors has acquired Overstreet Publications, producers of the first comic book price guide; over the next few months, the Gemstone Publishers logo will appear on Overstreet releases as publishing shifts to the new location... Look for ***Captain Marvel*** to finally join the DC lineup in early 1995... Topps has acquired the rights to ***Kolchak, the Night Stalker,*** but the comic version isn't yet on Topps' schedule... Alex Malloy, publisher of ***Comics Values Monthly, Triton,*** and ***Toy Values Monthly,*** has announced that all three publications are on hold; he hopes that ***CVM*** can return in early '95... All of Marvel's December-release deluxe X-books will include a bound-in ***Fleer Ultra X-Men II*** trading card in a foil wrapper (!)...

Werewolf? Here Wolf!

Graphitti Designs has gone deep into the past for their latest Doc Savage lithograph, Brand of the Werewolf... a little over sixty years into the past, in fact. This 16" x 24" litho reproduces the cover painting for the January 1934 issue of ***Doc Savage Magazine,*** Doc's eponymously-entitled pulp home long before Bantam resurrected the series in the 1960's. *Walter Baumhofer*, the first painter to illustrate the Man of Bronze, supplied the eye-catching art for this lithograph, which is still just as eye-catching today as it undoubtedly was sixty years ago. ***Doc Savage: Brand of the Werewolf*** is limited to 950 continuous-tone high-definition lithographs; each numbered unsigned copy is affordably priced at $29.95.

Odd Oz

Remember Oz, the quaint fantasy world created by *L. Frank Baum*? Well, according to *Ralph Griffith*, *Stuart Kerr*, and *Bill Bryan*, the Oz you saw in the film was far too tame; the Oz they're presenting in their new series from Caliber Press is more grim and menacing. ***Oz*** is an ongoing series that shows what happened to the Scarecrow, Tin Man, and the Lion after Dorothy and Toto headed back to Kansas. Now they're servants of the evil gnome-king... but why? ***Oz*** answers those questions as it reintroduces many of Baum's favorite creations, such as Tik-Tok, Sawhorse, Ozma, Mombi, and Pumpkinhead. ***Oz #1,*** a $2.95 comic, is scheduled for October release.

Greeting Cards, Crumb Wrap Makes For Not-So-Crummy Holiday

Kitchen Sink is doing their part to make the holiday season a little more comic bookish: they're not only offering two sets of holiday greeting cards illustrated by a variety of comic artists, but they're also offering a selection of wrapping paper illustrated by *Robert Crumb*.

Kitchen Sink's ***Seasoned Greetings Holiday Greeting Cards*** are available in two sets: a slightly irreverent ***Set One*** illustrated by *Mike Allred, Paul Chadwick, Jack Davis, Will Eisner, Mark Nelson, Wendy Pini*, and others, as well as a more irreverent ***Set Two*** illustrated by *Sergio Aragones, Peter Bagge, Dan Burr, Charles Burnes, Jaime Hernandez*, and more. Each $15 set features ten full-color 5" x 7" greeting cards with envelopes; look for them in late October.

Crumbwrap features four 18" x 24" sheets of wrapping paper; three sheets feature Robert Crumb's well known comix characters, while the fourth sheet features an expressionistic Crumb design; ***Crumbwrap*** will be available in late October for $9.95. Now, if they'll only offer comics bows and ribbons...

Services For Chapel

Chapel's life certainly hasn't been easy; his brutal life has led to the death of a friend at his own hands, he's been hideously scarred in an act of retribution, and he's HIV positive. He may be strong enough to take on a gang of supervillains, but he's not strong enough emotionally to deal with all of this: in ***Youngblood #10***, he chooses to end his own life by committing suicide in a brutal scene that may lead Image to polybag the book with a warning about the graphic nature of the final page.

"Chapel's death is an incredibly significant event in what we have planned for the overall scheme of the Image Universe," Extreme Studios marketing director *Matt Hawkins* said. "The suicide is a culmination of a series of events and, in itself, a turning point for the Youngblood and related books. This will have dire consequences in all of our books for the next few months and the ramifications will be felt for many years to come.

"When *Stephen Platt* heard about the suicidal death of Chapel, he approached *Rob Liefeld* about depicting the moment when Chapel takes his own life. The result is a rather graphic piece of storytelling," Hawkins said. ***Youngblood #10***, a $2.50 comic, is scheduled for late October release.

Topps Ventures Into a Patrick Macnee Faces a Deadline

In the 1960's, *Patrick Macnee* starred in the cult-favorite television show, ***The Avengers,*** in which he played John Steed; in the late 1970's, he returned to the role once again in ***The New Avengers,*** in which he worked with a pair of younger agents. Well, even though it's been over a quarter of a century since Patrick Macnee first played John Steed, he can't get away from that famous role. He may be a bit old to *play* the role of John Steed now, but he's not too old to *write* the adventures of John Steed—and that's just what he's doing! ***Deadline,*** a new Avengers novel written by Macnee, pits Steed and Peel against The Brotherhood, a band of neo-fascist criminals who are manipulating the overseas press to embarrass Britain and antagonize other nations. This is the first in a series of original novels starring Steed and Peel, and it's likely that Macnee will write some of the subsequent novels as well. ***The Avengers: Deadline,*** a 192-page $7.95 paperback, is slated for late October release.
